About Me

Software Engineer with a strong focus on backend development, API design, and database systems. Experienced in the MERN stack, Next.js, and AI-powered applications including RAG pipelines and agentic workflows. Passionate about building scalable, secure, and production-ready web systems.

Education

Charotar University of Science and Technology (CHARUSAT)

2023 – 2027

Bachelor of Computer Engineering - CGPA: 8.85/10

Technical Skills

- **Languages:** Java, JavaScript, TypeScript, SQL
- **Frontend:** React.js, Next.js, Tailwind CSS, Shadcn UI, Zustand
- **Backend:** Node.js, Express.js, MongoDB, PostgreSQL, Prisma, REST APIs, JWT, tRPC, WebSockets, Zod
- **Tools:** Git/GitHub, Clerk, Supabase, Vercel, Docker
- **AI & Automation:** OpenAI API, Vercel AI SDK, RAG Pipelines, Agentic Workflows, Inngest, Workflow Automation (n8n)

Projects

HelloAI – AI Powered Meeting System [\[Repo Link\]](#)

Tech Stack: Next.js, TypeScript, PostgreSQL, tRPC, Drizzle ORM, Stream Video, OpenAI, Inngest, Polar, Better Auth

- Built a real-time AI meeting platform where users create instruction-based agents and conduct live voice meetings with AI, including automated transcription and summaries.
- Developed a type-safe full-stack system using tRPC, PostgreSQL, and Inngest with integrated subscription management via Polar.

APIForge – Developer Platform for API Testing & Code Generation [\[Repo Link\]](#)

Tech Stack: Next.js, PostgreSQL, Prisma, BetterAuth, Tailwind CSS, AI APIs

- Built an API testing platform supporting REST and WebSocket requests with real-time response inspection and debugging tools.
- Implemented an AI engine that converts API request data into production-ready backend code (controllers, routes, models) with collaborative workspaces and shared collections.

InterviewMate – AI-Powered Technical Interview Preparation Platform [\[Repo Link\]](#)

Tech Stack: Next.js, MongoDB, Clerk Auth, OpenAI API, Tailwind CSS

- Developed an AI-powered platform that generates domain-specific interview questions and evaluates answers in real time.
- Implemented practice and mock interview modes with performance analytics, leaderboards, and an admin dashboard for user and domain management.

Experience

TLK Industries PVT. LTD.

May 2025 – June 2025

MERN Stack Web Developer

- Developed RESTful APIs using Node.js and Express.js and integrated them with React-based frontend components.
- Designed and managed MongoDB schemas with proper validation, optimized queries, and secure data handling.
- Implemented authentication, authorization, and protected routes to ensure secure end-to-end application access.

Hackathons & Competitions

Odoo x Gandhinagar Hackathon 2025

2025

Participant – Full Stack Web Development

- Designed and shipped a complete full-stack web application within a 24-hour sprint, demonstrating rapid prototyping and technical execution under pressure.

Odoo-X-SPIT

2025

Participant – Full Stack Web Development

- Participated in the Odoo-X-SPIT hackathon, developing innovative solutions using full-stack technologies.

Soft Skills

Leadership | Rapid Prototyping | Critical Thinking | Continuous Skill Development | Problem Solving
